BIO

Sonny Singh Dosanjh, M.D with ABMS Board Certification in Physical Medicine and Rehabilitation (Physiatry) and Emory Fellowship Trained in Multidisciplinary Pain Management. He completed his residency and fellowship training at Emory University.

Dr. Dosanjh is a native of Vancouver, British Columbia, Canada where his parents still reside. Both of his younger sisters are also medical professionals. He has been blessed with a family who has provided him the necessary principles and values to accomplish his personal and professional goals; compassion, morality and perseverance have allowed him the opportunity to practice medicine.

He first came to Atlanta and Emory as a physician resident more than 10 years ago, has resided in the where he has been an active volunteer in community

programs.

Dr. Dosanjh completed his undergraduate studies at one of Canada's elite programs, The University of British Columbia where he was inducted into the Golden Key National Honor Society. He completed medical school at St. Christopher's College, in England where he also secured a job as the quarterback of a professional football (American football) team. There, he was offered an opportunity to play in the NFL Europe which he turned down as he made a clear commitment to pursue a residency in Physical Medicine and Rehabilitation at Emory University.

Specializing in pain, sport, spine, rehabilitation and Dr. Dosanjh and his team of medical professionals develop individualized treatment plans based on their assessment; minimally invasive surgical procedures, injections, physical therapy, and long-term oral analgesics.

Dr. Dosanjh treats patients suffering from neck, mid-back, lumbar, buttock (with or without radiating symptoms into the extremities) and joint as well as pain from nerve related disorders. It does not matter if they have seen other specialists or had other procedures, they may still benefit from his knowledge and his interventional skills.

He has published a number of papers, delivered lectures and presentation and participated in several research projects in affiliation with Emory.

Dr. Dosanjh has a passion for medicine and would like to use his life experiences to bring physical and emotional healing to his patients.
